How to Shoot with a Revolver.
To begin righting along, the barrel of a six-shooter, as in target gallery practice, is a handicap to the man who wants to learn the art at its best. The hand and eye, of course, work together with all weapons and in all combats; but there is a difference between the eye-general and the eye-particular. The best form of boxing or fencing—that is what the use of the six-shooter means. You point your fist or your foot instinct. You cannot help pointing your finger directly and straight at any object, no matter how hard you try. Yet surely you do not sight down your finger. In the best work with the six-shooter, you point with the barrel just as you point with your finger, or really, you point with your wrist and forearm, and the six-shooter is the finger of your wrist, the lengthening of your arm. That is the theory and creed of the six-shooter.—Outing.

Truthful Child.
It was at a children's party. The youngsters had just done more than justice to the luxurious spread provided by their hostess, and games were now the order of the evening.
"Now, children," said she, "we will play the zoo, and each of you must represent a different animal."
Then, going to a little girl, she asked:
"Now, Carrie, what are you going to be?"
"I'll be an elephant."
"And you, Reggie, what are you going to be?"
"I'm going to be a lion."
"And what are you going to be, Hilda?"
"I'm going to be a tiger."
Then, crossing to the other side of the room, the hostess, noticing a youngster sitting all alone, asked:
"And what are you going to be, Tommy?"
"P-lease," was the halting reply, "p-lease, I—I'm going to be sick."

When Will Johnson City People Learn the Importance of It?

Backache is only a simply thing at first; But when you know 'tis from the kidneys; That serious kidney troubles follow; That diabetes, Bright's disease may be the fatal end.

You will gladly profit by the following experience.
T. P. Lowe, living on Highland avenue, Greenville, Tenn., says: "I suffered a great deal from kidney trouble and do not know whether it was the fumes from the turpentine in the paints I worked with or the continual strain on my back that brought on the disease. I had severe backaches when I arose in the morning felt tired and unrefreshed. I had to be careful when stooping as sharp pains would pass through my loins and kidneys. The kidneys secretions also burned in passage. I tried a number of remedies but did not succeed in finding relief until Doan's Kidney Pills were brought to my attention. I used them according to directions, and was soon completely cured."

Prolonging Life.
While no way has yet been found to make life perpetual, it is a fact that life can be prolonged. Many people die before their time because the organs become clogged and can not do their work.
